

## 3d art portfolio site

My final project will be a website to post my 3d art portfolio.

I plan on making a site which will house all of the 3d art I have done and have the art separated by character and prop art. I will also include an about me page and an interactive contact me page. I will also have a section for art commissions and for other art and overall portfolio pieces.

## Personas

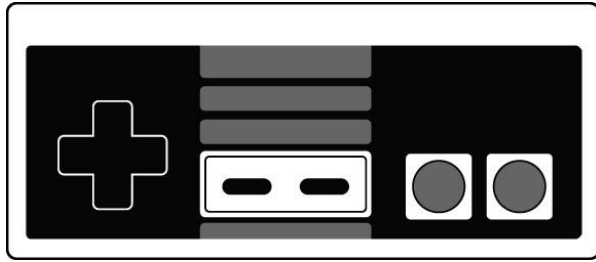

Jerry the Artist

3d Artist looking for inspiration.

Frank the Teacher

Teacher of 3d Art looking for examples to use in his classes.

Andrea the HR rep

Human Resources representative at a game studio.
